## **From The Principal's Desk**

Dear All,

Greetings from SIPS!!

**“EDUCATION IS THE MOST POWERFUL WEAPON WHICH YOU CAN USE TO CHANGE THE WORLD.” –NELSON MANDELA**

Keeping in tune with this thought we started our academic journey on 20th May 2024. As a Principal, I have always emphasised on providing the best learning environment for our students. As we step into the 2024-2025 school year, our vision is to become a model in academic excellence.

We, at Suryodhaya International Public School, ensure high quality education which motivates and empowers our students to be lifelong learners and the productive members of the society. At SIPS, education is not just the amount of information that is put into a child's brain, our education system is the one that caters the individual needs of our students.

I, personally believe that “Imagination is more important than knowledge” because knowledge is about what we already know, whereas imagination is what moves individuals and cultures forward, imagination is where new ideas are created and progress becomes possible. Imagination leads to innovation. SIPS will surely give much importance to imaginative and play way methods of teaching.

We firmly believe that the parents are their child's first and most important teacher. Parents play a vital role in the education of their children. We happily welcome all our parents to take an active role in the education of their children and to be the active participants in their school life.

I would like the parents to know that me and my team is always there to discuss any concerns, questions, or ideas you may have regarding your child's education. I welcome you all to an outstanding learning community where everyone is dedicated to a high standard of excellence. At our end, we shall continue working with you for the best interests of our beloved students. My commitment is to lead the school with enthusiasm and passion.

**“HELP US TO HELP YOUR CHILD”**
